DESCRIPTION OF WORK

This application does not imply approval of the proposed work. The applicant shall be responsible for confirming final approval of the proposed work prior to starting any work which requires a permit. All work shall be in compliance with NFPA standards, State and Local Regulations. The applicant shall be responsible for scheduling final tests and inspections for any work performed immediately upon completion. Any changes to the previously approved conditions must also be approved by the Bureau of Fire Prevention. Failure to provide the requested information will result in denial of the permit. All sections must be completed.
